v.

CAMELBAK PRODUCTS, LLC,

Civil Action No. 1:14-cv-09210

The Honorable John J. Tharp, Jr.

Magistrate Judge Michael T. Mason

REPORT OF THE PARTIES' PLANNING MEETING

1. The following persons participated in a Rule 26(f) conference on January 15, 2015, by telephone conference:

Jonathan M. Cyrluk, David S. Moreland, and Walter Hill Levie III, representing Plaintiff Ignite USA, LLC.

Maura McIntyre Neville, Steven M. Wilker, Jon P. Stride, and Eric Beach, representing Defendant CamelBak Products, LLC.
2. Initial Disclosures. The parties have completed the initial disclosures required by Rule 26(a)(1).
3. Disclosures and Discovery Pursuant to Local Patent Rules. The parties acknowledge that the requirements of the Local Patent Rules apply to this case.
4. Additional Discovery Plan. The parties propose the following in addition to the discovery plan and schedules addressed in the Local Patent Rules:
 - (a) The parties state that while they presently believe the limitations under Fed. R. Civ. P. 33 to be appropriate, they agree to cooperate reasonably should additional written interrogatories be deemed necessary by either party. In the event the parties are unable to agree, the parties reserve the right to seek leave to serve additional written interrogatories.
 - (b) The parties state that while they presently believe the limitations under Fed. R. Civ. P. 36 to be appropriate, they agree to cooperate reasonably should additional

requests for admission be deemed necessary by either party. In the event the parties are unable to agree, the parties reserve the right to seek leave to serve additional requests for admission.

- (c) The parties state that while they presently believe the limitations under Fed. R. Civ. P. 30 to be appropriate, they agree to cooperate reasonably should additional depositions be deemed necessary by either party. In the event the parties are unable to agree, the parties reserve the right to seek leave to take additional depositions.
 - (d) The parties state that while they presently believe the limitations under Fed. R. Civ. P. 30 to be appropriate, they agree to cooperate reasonably should additional time to take a deposition(s) be deemed necessary by either party. In the event the parties are unable to agree, the parties reserve the right to seek leave for additional time to take a deposition(s).
 - (e) Discovery is permitted with respect to claims of willful infringement and defenses of patent invalidity or unenforceability not pleaded by a party, where the evidence needed to support these claims or defenses is in whole or in part in the hands of another party.
5. Alternative Discovery Plan. The parties propose a discovery plan that differs from that provided in the Local Patent Rules, for the reasons described with particularity in Exhibit 1 to this Report:

Neither party proposes a discovery plan at this time that differs from that provided in the Local Patent Rules. However, the parties have submitted a proposed Initial Patent Scheduling Order attached hereto as Exhibit 1, setting forth the applicable case deadlines as provided by the Local Patent Rules.

6. Other Dates:
- (a) The parties agree and stipulate that supplementations in this case shall be governed by Fed. R. Civ. P. 26(e) and the Court's Local Patent Rules.
 - (b) Pursuant to the Court's Order dated December 10, 2014 (Dkt. No. 18), an initial status conference is set in this matter for February 5, 2015, at 9:00 a.m. Neither party requests any additional conferences at this time.
 - (c) Pursuant to the Court's Order dated December 10, 2014 (Dkt. No. 18), an initial status conference is set in this matter for February 5, 2015, at 9:00 a.m. Neither party requests any additional conferences at this time.

- (d) The parties agree and stipulate that amended and supplemental pleadings must be filed in accordance with the time limitations and provisions of Fed. R. Civ. P. 15. The parties shall have a continuing duty to inform the Court of any contentions regarding unnamed parties necessary to this action or any contentions regarding misjoinder of parties or errors in the statement of a party's name.
- (e) The parties agree and stipulate that amended and supplemental pleadings must be filed in accordance with the time limitations and provisions of Fed. R. Civ. P. 15. The parties shall have a continuing duty to inform the Court of any contentions regarding unnamed parties necessary to this action or any contentions regarding misjoinder of parties or errors in the statement of a party's name.
- (f) The parties agree and stipulate that witness lists, designations of witnesses whose testimony will be presented by deposition, and exhibits lists must be served in accordance with the time limitations and provisions of Fed. R. Civ. P. 26.
- (g) The parties agree and stipulate that any objections to another party's witness lists, designations of witnesses whose testimony will be presented by deposition, and exhibits lists must be served in accordance with the time limitations and provisions of Fed. R. Civ. P. 26.

7. Other Items:

- (a) The parties state that there are no prospects for settlement at this time. However, the parties may discuss the possibility of settlement after discovery.
- (b) The parties presently believe that an alternative dispute resolution procedure will not enhance settlement prospects.
- (c) Communications between a party's attorney and a testifying expert relating to the issues on which he/she opines, or to the basis or grounds in support of or countering the opinion, are subject to discovery by the opposing party only to the extent provided in Rule 26(b)(4)(B) and (C).
- (d) In responding to discovery requests, each party shall construe broadly terms of art used in the patent field (e.g., "prior art," "best mode," "on sale"), and read them as requesting discovery relating to the issue as opposed to a particular definition of the term used. Compliance with this provision is not satisfied by the respondent including a specific definition of the term in its response, and limiting the response to that definition.
- (e) The parties are currently undecided whether the video "An Introduction to the Patent System" distributed by the Federal Judicial Center, should be shown to the

jurors in connection with its preliminary jury instructions. The parties will provide input to the Court on this issue when submitting pre-trial disclosures.

- (f) The parties agree that the provisions of Sections 3A, B and C of the America Invents Act (“AIA”) concerning the revisions to 35 U.S.C. §§ 102, 103 do not apply to the patent-in-suit in this case. The parties agree and stipulate that U.S. Patent Application Serial No. 14/094,128, which issued as the patent-in-suit, U.S. Patent No. 8,863,979, was examined under the pre-AIA provisions of 35 U.S.C. §§ 102, 103, which shall apply in this case.
- (g) Defendant CamelBak Products LLC presently intends to file a Petition for *Inter Partes* Review with the Patent Trial and Appeals Board to challenge the validity of Claims 1, 3, 6, 8 and 10 – 15 of U.S. Patent No. 8,863,979. Defendant expects to file its Petition before the end of February 2015. In connection with that Petition, defendant may move to stay this case. Plaintiff will oppose any such motion.
